The following investigation was conducted by SA  
[redacted] at Ukiah, California:

b6  
b7C

On August 20, 1990, [redacted] was contacted at the Mendocino Environmental Center, 106 West Standley Street, Ukiah, California at which time she was reminded of the identity of the contacting Agent and the fact that the FBI still wished to interview her regarding her knowledge of the whereabouts of JUDI BARI's car.

[redacted] inquired as to whether her attorney, [redacted] had been in touch with the FBI and she in turn was told that the FBI had been in contact with [redacted] regarding the possible interview of JUDI BARI and that [redacted] had stated in a previous discussion that she, [redacted] was not going to dictate as to who should talk to the FBI and under what circumstances.

b6  
b7C

[redacted] again repeated her statement that she was going to wait for word from her attorney before talking to the FBI, at which time the attempted interview was terminated.

b6  
b7C

On 8/20/90, Deputy [redacted] was contacted at his residence, [redacted] California at which time he was advised of the identity of the contacting Agent and requested to provide any insights he might have regarding the bombing of JUDI BARI's vehicle. [redacted] then provided the following:

[redacted] stated that CHERNEY has a cabin on Salmon Creek Road, the cabin which was searched in May. He previously resided at the Old Sandy Point West Motel in Piercy, California where he lived for a couple of years. He still maintains a telephone contact there care of telephone number 247-3320. CHERNEY has no phone in his present cabin.

b6  
b7C

CHERNEY [redacted] who runs the  
[redacted] (LNU) works at same.

b6  
b7C

[redacted] advised that recently he observed [redacted] with JUDI BARI as JUDI BARI was in the Ukiah/Willits area dictating how things should be run from her wheelchair. [redacted] was of the impression that [redacted] on behalf of BARI. [redacted] added that in many cases directions for upcoming actions are dictated by the BARI leadership group.

b6  
b7C

Recently, CHERNEY seems to be spending a lot of time in the Oakland/Santa Cruz area. He also seems to be paranoid.

**Helios Creed**

# And High on the Earth Hemp Awareness Day

**THE PROS**

**HEMP FOR ECOLOGY** - Hemp is a soil building plant that is excellent in crop rotation and, unlike cotton and corn, does not require heavy fertilization or pesticide use. In fact, an organic pesticide spray is derived from the plant.

**HEMP FOR CLOTHING** - Fabrics made from hemp are warmer, softer, stronger, more water absorbent and last 26 times longer than cotton.

## WHY AS FOOD?

The marijuana hemp seed (which is technically a fruit) is the second-most "complete" (has the 8 essential amino acids) vegetable protein source on our planet; only soybeans have a bit more protein. However, hemp seed is many times cheaper and its protein potential can be utilized better than soybean by the human body.

**HEMP INSTEAD OF PLASTIC** - The stems of the hemp plant offer a completely biodegradable alternative to plastic for many applications or can be made into either regular or "biodegradable" plastic.

**HEMP SAVES FORESTS** - 20 year period, one acre of hemp will produce as much paper as 4.1 acres of forest.

**HEMP FOR PAPER** - Paper made from hemp lasts many times longer than that made of wood pulp, without yellowing or otherwise deteriorating. It does not require dangerous chemicals like wood, and has been called the "archivist's perfect paper."

**HEMP FOR FUEL** - Hemp nuras are 77% cellulose and its per-acre output of biomass fuel is about 10 times more than corn, the next best source of the fuel. We could replace virtually all nuclear energy and fossil fuel by using hemp biomass that has been processed with a pyrolytic converter to make charcoal to replace coal, methanol and even gasoline to replace oil-based gasoline, methane gas to replace natural gas and any of these can be burned to generate electricity.

On August 13, 1990, [redacted] for Louisiana Pacific [redacted] telephone number [redacted] was contacted at his office, [redacted] at which time [redacted] was asked if he had any pictures of a sign taken during a demonstration that may indicate the sign to be similar in writing to the sign left after the bombing of the Louisiana Pacific plant in Cloverdale.

b6  
b7C

[redacted] advised that he had looked for pictures of the sign which he recalls was similar to that recovered in Cloverdale and that he in fact had obtained a sign from the truck of one of the demonstrators and furnished it to the Deputies of the Humboldt County Sheriff's Office to be retained as evidence. It is [redacted] understanding that the sign was subsequently inadvertently discarded after the demonstration and is not available for review.

b6  
b7C

[redacted] stated he took videos of the demonstration and furnished a copy to the Oakland Police Department.

b6  
b7C

[redacted] stated further that any and all threat letters that he has received have been turned over to [redacted] at the Humboldt County Sheriff's Office, care of telephone number [redacted]

On 8/13/90, an attempt to contact Lieutenant [redacted] determined [redacted] is on vacation until 8/20/90.

The following investigation was conducted by SA  
[redacted] at San Francisco/Sompa, California:

On 8/13/90, [redacted]  
Louisiana Pacific was telephonically contacted at [redacted] at  
which time he was asked if his office had acquired photographs  
from previous demonstrations conducted at the various Louisiana  
Pacific facilities.

[redacted] stated that he in fact did have some  
photographs and would be willing to make those available to the  
FBI in San Francisco.

It was agreed that [redacted] would mail to the San  
Francisco Office the photographs in his possession via registered  
mail and that the FBI would copy any relevant photographs and  
return same to him post haste.

[redacted] stated further that any and all flyers  
and correspondence that Louisiana Pacific has received have been  
forwarded to the Humboldt County Sheriff's Office care of  
Lieutenant [redacted]

The following investigation was conducted by SA  
[redacted] at San Francisco/Eureka:

On 8/16/90, Detectives [redacted] were  
contacted at the Humboldt County Sheriff's Office, Eureka,  
California, via telephone number [redacted] at which time they  
advised that they did have in their possession numerous  
correspondence, flyers and the like which they have been  
collecting during various demonstrations, etc. The Humboldt  
County Sheriff would make these available to the FBI.

In passing, the Detectives advised that the Seeds of  
Peace, and specifically one [redacted] is planning to organize  
a large demonstration later in the month of August to emphasize  
the goals of Earth First. It was reported that tree spiking has  
increased considerably in the Humboldt County area during the  
last two weeks, and it is felt by many that the previous tactics  
of the environmentalists have not worked and that they are  
getting frustrated.

In addition, information has been received that members  
of the Earth First in the tri-state area, believed to mean  
Washington, Oregon, California and possibly Arizona are planning  
to travel to the North Coast and attempt to take over Earth First  
activities as they feel the local leadership is not doing enough.

The following investigation was conducted by SA [redacted] at Eureka, California:

On 8/9/90, while reviewing Letters to the Editor of the Eureka Times Standard newspapers, report [redacted] reviewed the Lord's Avenger letter, after which he furnished the following observations:

[redacted] stated that it appeared to him that who ever wrote the Lord's Avenger letter may have had a strong religious upbringing as a kid and has since broken away from his organized church and followed a new faith. He added that the letter was similar to "things" found in Utah, such as religious tracts (pamphlets). He added that he did not mean that the letter was necessarily Mormon, but that it reminded him of material frequently found in Utah.

[redacted] the Times Standard made the observation that the letter was well written and not something he would expect to find coming from the timber industry. [redacted] also made the observation that to bomb someone was out of character for the North Coast in that many of the truckers/ loggers often carry rifles in their pickups and if they were going to harm JUDI BARI they would in all likelihood have just shot her.

*Letter SB,*  
July 19, 1990

Problems addressed - 14 pp.

California Department of Forestry  
Regional Headquarters  
P.O. Box 670  
Santa Rosa, CA 95402

Gentlemen, *To The Editor:*

*have ten the Department of Forestry in*  
We are writing you regarding Timber Harvest Plan THP 1-90-526  
*to*  
~~July 6~~ by Barnum Timber Company for "223 acres of clearcutting, re-  
habilitation on Curly Cow Creek" in Mendocino County, California.

*the Department*  
We are neighbors to this proposed THP and we are very much against  
this plan. We challenge you to have a complete, cumulative EIR and  
study completed on this entire area surrounding Sherwood Peak, which  
is the watershed for the Ten Mile River tributary system, a major salmon  
spawning area.

*the*  
We feel that a number of problems are not being adequately  
addressed by your Department with several THP's ~~you have~~ already  
approved for this area and that are now being cut on land owned by  
Louisiana-Pacific, Georgia-Pacific and private *14* land owners.

The constant annoyance from noise, pollution and a real danger  
from fast lumber trucks on ~~the small~~ Sherwood Road has been severe for  
us this summer and last. Sherwood Road seems to be the only access  
road to this entire watershed area.

*us*  
Mendocino County has spent thousands of dollars this year alone  
on road repairs to the new chip seal on Sherwood Road. County workers  
have told ~~me personally~~ that the trucks are overloaded and this is what  
is causing the heavy road damage.

Clearcutting is no way to manage our forests. This logging process  
leaves too much open soil bare to the hot summer sun, a highly unfavorable

(more)

condition for new plant growth. Erosion into the local streams is much worse and this spells disaster for spawning salmon and the local fishing industry.

[ It has been established by the Mendocino County Forest Advisory Committee, ~~appointed by the County Board of Supervisors to study the timber issue, and the recent FRRAP report that Mendocino County is currently being overcut (3) times growth (or 320%) <sup>over</sup> for sustained yield.~~ To allow another clearcut in this county is an outrage.

~~How can you call this THP "rehabilitation on Curly Cow Creek"? Rehabilitation would mean leaving this area alone to regenerate from past timber harvesting.~~

[ This type of forest management leads to the problems we now face in the local timber industry. Problems of overcutting that lead to job losses, forest cover losses, oxygen losses, droughts and air and water pollution.

[ Statistics compiled by the FRRAP show that "overcutting by the major timber corporations have created a crisis <sup>e/</sup> which gravely threatens the viability of the timber industry".

[ If this type of forest practice is so good then why is Mendocino County, a county whose economy is based on the timber industry, going bankrupt? Why are our timber workers looking at recently closed mills and low wages? Why are Louisiana-Pacific and Georgia-Pacific making record high profits the past few years at our's and the forests expense? Why are we facing a drought in Northern California? Why are you approving so many THP's?

[ We feel that these problems must be adequately addressed and solved by your Department before any more cutting is allowed in Mendocino County.

Restore funds 7 SH-Letters - Ed

To The Editor:

The following letter has been sent to Senator Barry Keene and [redacted] (and others) to enlist their aid in forestalling damaging cuts in the Court and Community School programs in every school district in the County. We also hope that others who value continuation of the program would pen a brief letter in support of continued full funding of these programs.

On behalf of the Board of Directors of the 27th District P T A (Mendocino and Lake Counties) I am voicing strong opposition to the part of the Governor's budget that would seriously reduce Court and Community School funding (line item 6110-106-001, sections 4, 5, 6, and 7).

I appreciate the need to find ways of dealing with the expected deficit, but surely there are less costly ways of cutting back. I remind you that Court and Community Schools are our first line of defense against increasing numbers of alienated, troubled youth who often grow into destructive, costly burdens upon our society and economy. Failure to deal effectively with these youngsters may well be the greatest threat to the stability of our society in the not-so-distant future.

In Mendocino County we know that our Court and Community Schools are working. According to figures provided by the Mendocino County Office of Education:

- The dropout rate in Mendocino County has been reduced by 30% below state average;
- Juvenile arrest rates have been reduced in our county by 15% from 1987 to 1988;
- In 1987, more than 90% of 601 <sup>youth</sup> (status offenders) ~~youth~~ had no further contact with the justice system after leaving their community-based program; and
- Enrollment in the 602 (on probation) program has dropped 25% in less than a year.

So, in the interests of the future well-being of all of us, please seriously weigh the real costs of "saving money" at the expense of programs designed to lessen one of our greatest social problems.

Please act to restore those funds.

REPORT, DATED 5/13/87, STAMPED "CONTROLLED DOCUMENT -  
CONFIDENTIAL INFORMATION - DO NOT DUPLICATE" IS BEING WITHHELD IN  
ITS ENTIRETY.

## I. INVESTIGATION

On 5/16/87, at approximately 1230 hours, I was contacted by Mendocino County Sheriff's Office Dispatch who advised that they had received a telephone call from witness [redacted]. I was advised that [redacted] had information pertaining to this case. Dispatch advised me that the witness was at a residence in Santa Rosa, and that she had just gotten out of a hospital. A phone number of [redacted] was given for re-contact purposes.

b6  
b7C

At approximately 1235 hours, I contacted witness [redacted] via telephone at the number given. She related, in part, the following information: She advised me that she is a resident of [redacted]. She also advised that her parents live [redacted].

b6  
b7C

Witness [redacted] advised that she was at her parents' residence on December 26, 1986, at which time a [redacted] came to her parents' home. [redacted] who is known to the witness as having property on the [redacted] requested to borrow a hammer from the witness's parents. The suspect told the witness that he wanted the hammer for the purpose of pounding spikes into the trees around his house. He was tired of the loggers tearing up the trees around his house.

The witness advised that the suspect had possession of the hammer for the entire day, eventually returning the hammer that evening. Upon his return, he told the witness that he put all of the big spikes that he had in the trees and that when he ran out, he had to use the smaller ten penny nails.

[redacted] stated that she only knows the suspect as [redacted] and that he lives somewhere in the Southern California area. [redacted] stated that she believes that her mother has his address at her residence and that she will furnish the address when we are able to meet.

b6  
b7C

I requested a meeting with [redacted] at which time she advised me that her mother was going to pick her up in Santa Rosa on Monday and take her to her residence in [redacted]. [redacted] stated that she would have her mother stop at the Sheriff's Office in Ukiah on Monday so we could meet and I could obtain a statement from her regarding the information that she had about [redacted].

b6  
b7C

With the information from [redacted] and the fact that he is supposedly from Southern California, I contacted M.C.S.O. Dispatcher [redacted] and had her check DMV records for an address and any other information on [redacted]. [redacted] was able to obtain a complete name of [redacted] with the above identifying information, with an address of [redacted] California.

b6  
b7C

At approximately 1315 hours, I received a call back from [redacted]. She stated that she had remembered that [redacted] vehicle had broken down in the Fort Bragg area in March of this year. She believed that Schlafer's Towing in Mendocino had responded and towed the vehicle to their garage in Mendocino for repairs. She advised that the garage would be able to furnish me with [redacted] vehicle description and his home address in Southern California.

b6  
b7C

At 1325 hours, I contacted Schlafer's Towing in Mendocino and spoke with [redacted] who is responsible for [redacted] the business. I advised him of the information I needed regarding [redacted] advised me that he would check his records and get back to me.

b6  
b7C

At 1500 hours, I was contacted by [redacted] who furnished me with the following information regarding [redacted] vehicle was towed to their garage on 3/20/87. The license number was given as [redacted] address was given as [redacted] California. This information was obtained from repair work orders that the garage had on [redacted] vehicle. A Triple A towing card was used for the tow, and a number of [redacted] with an expiration date of 9/19/87 was given. The vehicle was towed from the area of the Heritage House near Albion.

b6  
b7C

[redacted] advised me that he believed [redacted] to have property on [redacted]

b6  
b7C

[redacted] advised that [redacted] vehicle, and may have additional information for me.

At 1545 hours, I was contacted by CHP Officer [redacted] who works in the Fort Bragg area. He advised me that he had read the newspapers regarding the injury to the mill worker in Cloverdale and the spiking of the trees.

b6  
b7C

He advised me that in March of this year he had, while on duty, come across a disabled motorist who he assisted with getting his vehicle towed. [redacted] also supplied transportation for the driver and his passenger.

b6  
b7C

[redacted] transported the owner of the vehicle and his passenger, a female, to a location on Cameron Road. While driving to that location, the stranded motorist made several comments regarding the cutting of all of the trees in the Cameron Road area. Comments such as "They're cutting all my trees, I've got to get back", "I'm going to spike my trees", "They want to get the old ones, the big ones", and "I'm going to spike all the trees on my property". He also told [redacted] that he put yellow survey ribbons on his trees on the property lines, trying to throw the Forester's off.

b6  
b7C

b6  
b7C

[ ] stated that the Forester's took the ribbons off of the trees and put them on smaller trees.

b6  
b7C

I requested that [ ] write a report on his conversation with [ ] and forward it to the Sheriff's Office.

At 1630 hours, I went to the Sheriff's Office and had the master tape that recorded the initial call of [ ] removed and held as evidence after I made a recording of her call to the Sheriff's Office.

b6  
b7C

On 5/18/87, at 0830 hours, contact was made with [ ] of the Orange County Sheriff's Department, [ ] I advised [ ] of the suspect information and requested that he attempt to obtain a description of suspect's residence for an affidavit in support of a search warrant. He stated that he would attempt to obtain the description and he would call me back.

b6  
b7C

At 0850 hours, I received a call from [ ] [ ] for Louisiana Pacific. [ ] advised me that he had received a call from [ ] at [ ] told [ ] that he had been contacted by a couple of friends who may have information on who was spiking the trees.

b6  
b7C

At 0855 hours, I contacted [ ] and made an appointment with him for 5/19/87, during the a.m. hours. He stated that he would be at the landing for most of the day.

b6  
b7C

At 0915 hours, I went to the Mendocino County Assessor's Office and obtained the A.P. number of [ ] in the name of [ ] [ ] California. No information was listed under the name of [ ] as owning property in Mendocino County.

b6  
b7C

Upon checking further the records at the Assessor's Office, it was found that [ ] signed a Quitclaim Deed to his wife on October 23, 1985, although they are presently holding joint tenancy on the property.

b6  
b7C

On 5/18/87, at 1307 hours, contact was made [ ] at which time a taped statement was obtained. [Refer to transcript of taped statement of [ ] for details.]

b6  
b7C

On 5/18/87, at approximately 1330 hours, a female citizen who lives on Cameron Road advised me that she did not wish to give her name at this time. She stated that at a time earlier this year, [ ] vehicle had broken down and a Highway Patrol Officer had given [ ] a ride back to her residence on Cameron Road. She stated that she had heard that [ ] had spiked some trees around the Cameron Road area, but she had not heard that directly from [ ]

b6  
b7C

I asked the unidentified female of any structures that are on [ ] property. She advised me that there is a metal storage building on the property near the road. Going up the driveway, there is a plywood structure that she described as a shed that has a slight pitch to the roof. She believes the size of the building to be approximately 8' X 16'. In the same area of the shed is what she believes to be a cabover camper that is sitting on the ground.

b6  
b7C

She advised me that there is a chain across the driveway.

On 5/18/87, at 1400 hours, contact was made with [ ] California, at [ ]. He advised me that he had some friends who lived on Cameron Road who were extremely upset about the spiking incident. [ ] believed that a possible suspect in the case was [ ].

b6  
b7C

[ ] advised me that he had gone down to talk with his friends about the incident. He stated that he had actually been on the property belonging to [ ] and found that approximately twenty trees had nails in them. Arrangements have been made to meet with [ ] on 5/19/87, during the a.m. hours.

I. INVESTIGATION

On 5/21/87, at 0930 hours, I was met at the Mendocino County Sheriff's Office by Witness #1, [redacted] of Louisiana Pacific. We obtained a metal detector, camera, and other equipment before leaving for Cameron Road. Prior to going to Cameron Road, I was advised by Deputy [redacted] that he had obtained a signed permission to search from the owner of the property where [redacted] had been living. The owner of the property is [redacted] to whom [redacted] had signed over a Quitclaim Deed for full ownership of the property.

b6  
b7C

We traveled to the Cameron Road area, arriving at approximately 1130 hours. While at the property, we were met by [redacted] an investigator with the Sheriff's Department, and the three of us proceeded to the property. On the way there, we observed a number of trees that had been spiked. The trees were spiked with approximately sixteen penny nails, and they were approximately five feet up from the base of the tree and were in a lateral direction. My estimation is that some of the trees had as many as fifty nails. No other subterranean nails were observed by this officer, [redacted]

b6  
b7C

Reported by Sgt. [redacted]

b6  
b7C

We arrived at the property and found a small structure that was approximately 10' X 12', and a camper blocked up on tiers. Both of these structures were searched, and it appeared that somebody had lived there at one time but had moved, leaving nothing behind other than garbage. Nothing of any evidential value was found.

At approximately 1230 hours, I contacted a [redacted] whose property borders the property where [redacted] was living. I again interviewed [redacted] and asked him about the red handled hammer. He advised me that he could see this hammer in his mind, it wasn't really a red handle but it was a hammer that had wood up towards the top that was reddish in color. He also stated that this hammer has been missing for about a year. He stated that he did not believe in his own mind that this was the hammer that he had loaned to [redacted] related that he thought that this hammer was lost, but said that he would look for it and would contact us if he found it. I asked [redacted] if it would be possible for us to look for the hammer, and he agreed. We looked in the storage shed and in his studio, which is in the rear, with negative results.

b6  
b7C

I again asked [redacted] if he had seen [redacted] in the vicinity of the landings and he replied that he had. He stated that all he could remember was that he had seen [redacted] walking by the landings, and that he had thought that [redacted] was walking to [redacted] where he had leased a residence from a [redacted] who lives somewhere on [redacted] [redacted] said that he did not see [redacted] turn off into the landing area and he did not see him around any trees. He further stated that this occurred on or about March 20, 1987.

b6  
b7C

I also looked around [redacted] property and could see no sign of tree spiking, except along the boundary lines bordering [redacted] property and the property belonging to [redacted]. At this point, we used the metal detector on most of the trees, but did not find anything inside the trees. Nor could we find any spikes matching the description of those used in this crime.

b6  
b7C

After speaking with Deputy [redacted] it is my understanding that there is a possibility that [redacted] bought the spikes at Rossi's Hardware in Fort Bragg. We will be preparing a photo line-up to be viewed by employees at the store.

b6  
b7C

I checked the telephone directory and found [redacted] address to be [redacted] telephone number [redacted]. I checked the area to try to locate her residence, with negative results. The information was then given to Deputy [redacted] to follow up on.

b6  
b7C

On 5/26/87, at 1354 hours, I attempted to contact [redacted] b6  
by telephone, with negative results. I turned [redacted] b7C  
telephone number over to Deputy [redacted] for follow up.

I. INVESTIGATION

On 5/18/87, at approximately 1000 hours, contact was made with Mendocino County Supervisor [redacted] mailing address Mendocino County Courthouse, home telephone number [redacted] b6  
[redacted] b7C

The reason for [redacted] contact was due to information that had been received from Louisiana Pacific Forester [redacted] [redacted] had indicated to me that [redacted] in a meeting in March in the Ukiah area with Louisiana Pacific, had indicated to Louisiana Pacific that several of his constituents were upset b6  
b7C

Reported by Deputy [redacted]

b6  
b7C

with the logging operation that was in progress in the Cameron Road area.

The only name that [ ] would give to me as having any information was [ ] with a message phone of [ ] stated that this was the only person whose name he could remember. He stated that all other conversations that he had with people in the Elk area were just basically in passing, at locations such as the Post Office.

b6  
b7C

[ ] stated that I should contact [ ] who is an employee of the California Department of Forestry. [ ] stated that [ ] had some information on some tree spiking that went on in the Caspar area several years ago.

b6  
b7C

On 5/18/87, at approximately 1630 hours, I received a telephone call from Detective [ ] of the Orange County Sheriff's Department. [ ] who had been requested earlier by me to obtain any and all information about [ ] advised that the Midway City address is actually a Post Office Box. He stated that in checking with Post Office personnel, there were three addresses given as far as an actual residential address. One address was [ ] which is in San Bernardino County. The second address was [ ] in Orange. The last address was in Huntington Beach. [ ] stated that the second and third addresses given were not good at this time, and that he and his partner had checked out both of those residences. The first address in Apple Valley appears to be that of [ ]

b6  
b7C

[ ] further related that upon running [ ] apparent wife. [ ] through DMV records, an address of [ ] in Costa Mesa was obtained. I advised [ ] that this was the same address that was located in the Mendocino County Assessor's Office for the taxes to be sent for a piece of property that is apparently owned by the [ ] in this area. [ ] stated that he would continue to attempt to locate [ ] for a physical address.

b6  
b7C

On 5/19/87, at approximately 0800 hours, contact was made with [ ] representatives of Louisiana Pacific. [ ] accompanied myself and Sgt. [ ] to the Cameron Road area where contact was to be made with [ ] who is currently operating a logging operation in that area. Also intended to be contacted was [ ] who is the owner of the property adjacent to the [ ] property [ ]

b6  
b7C

At approximately 1000 hours, contact was made with [ ] at one of the log landings on Cameron Road. Also in attendance at the meeting was [ ] from the Mendocino County District Attorney's Office.

b6  
b7C

[ ] related that he had been logging the Cameron Road area from approximately early January, including and up to the date that we contacted him at the scene. He further related that he has only been using the number thirteen, that was observed on the log end which was at the Cloverdale Mill where the employee was injured, on the Cameron Road project since he has been there.

b6  
b7C

[ ] advised that he is reasonably sure that the log in question came from either the log landing where we were currently standing or the one that is located on the south side of Cameron Road near the [ ] residence.

b6  
b7C

Further conversation of [ ] revolved around the incident in which a dead dog was located on a piece of his equipment on the log landing some months prior. He stated that a dog that appeared to have been shot in the head with a small caliber shotgun, possibly of the .410 caliber, was partially skinned and gutted out. He stated that he had reported this incident to the Sheriff's Office and had talked with Deputy [ ] from the South Coast area. [ ] was not exactly sure as to the date that this incident occurred, but believed it to be either in January or March.

b6  
b7C

Contact was then made with [ ] who lives in [ ] earlier, at which time he indicated to me that he had friends who lived on Cameron Road by the name of [ ] who had talked with him and were concerned about the tree spiking incident. [ ] advised me in person on 5/19/87, that he had personally been on [ ] property approximately three times, at which time he had observed approximately twenty trees that had nails pounded into them. [ ] stated that he wanted to show us the trees on [ ] property. I advised [ ] that we were unable to go on the property without a search warrant.

b6  
b7C

[ ] along with Louisiana Pacific officials, myself, and Sgt. [ ] went onto Louisiana Pacific property which borders the west edge of [ ] property. From a vantage point at that location near boundaries of the Louisiana Pacific and [ ] property, I was able to see what appeared to be nails partially hammered into the trees along the edge of [ ] property.

b6  
b7C

On 5/19/87, at 1120 hours, contact was made with [ ] at their residence located at [ ] California. A taped interview was taken with [ ]. In this statement he relates, in part, that he does know [ ] and has talked with him on several occasions. He advised that [ ] owned the property located basically to the west of his property.

b6  
b7C

In December of 1986, [ ] was at [ ] residence around Christmas time. During this period of time, [ ] had borrowed a hammer from [ ] for the purpose of putting nails into

trees on his [ ] property. [ ] further advised that he personally observed [ ] putting nails into his [ ] trees. [ ] stated that he went down and talked with [ ] as he was putting the nails in the trees, and advised him that he did not think that it was a good idea for him to do this.

b6  
b7C

[ ] also advised me that [ ] had been at his residence in March of this year with a female subject whose name he cannot remember. [Refer to transcript of taped statement of [ ] for details.]

b6  
b7C

I then spoke with [ ] at which time a partial taped statement was taken. [Refer to transcript of taped statement of [ ] for details.]

b6  
b7C

It should be noted that at the end of the interview, [ ] asked if the tape recorder could be turned off. I advised her that it could be. It was at this time that she told me that she had promised her husband that she would not tell me the fact that she had observed [ ] walking up Cameron Road from his residence towards the direction of the logging decks. She stated that he had a backpack on his back and had already passed one of the logging decks. He was nearing the second log deck when she observed him. She stated that she did not know what was in his backpack. She stated that she did not continue to watch [ ]

On 5/19/87, at 1518 hours, I was contacted by [ ] of the Orange County Sheriff's Office. [ ] stated that he has been unable to locate any residence for [ ] in the Orange County area. He stated that he is almost certain that the Apple Valley address is the address of [ ] parents. The address is located at [ ] and is owned by a [ ]

b6  
b7C

[ ] further related that upon running [ ] driver's license through DMV, he found that as of 5/18/87 she lists her address as [ ] in Costa Mesa. This confirms the address that was located for her at the Mendocino County Assessor's Office. [ ] stated that he has not attempted to make contact with [ ]

b6  
b7C

[ ] stated that Post Office officials in Midway City had promised to call the Sheriff's Office when [ ] picks up his mail. They advised that the subject usually comes to the Post Office once a week to pick up the mail.

b6  
b7C

On 5/19/87, at 1545 hours, I attempted to obtain a telephone listing for [ ] at the Costa Mesa address, with negative results.

b6  
b7C

At 1730 hours, I contacted the Sea Cottage Real Estate Company in Mendocino. The sign that I had observed at the [ ] property on Cameron Road was from this Real Estate Company.

b6  
b7C

Upon speaking with an employee at the Real Estate Office. I was supplied with a phone number for [redacted]

At 1745 hours, I made a telephone call to [redacted]. This telephone was taped, and a typed transcript of the call will be provided. I advised [redacted] that I was investigating a situation in Mendocino County and needed to speak with her ex-husband, [redacted]. [redacted] advised me that he is currently renting a room with a woman that she would identify only as [redacted] and supplied a phone number of [redacted].

[redacted] stated that she has just changed her name to [redacted] and that she and [redacted] have been [redacted]. She stated that [redacted] is currently working as a [redacted] at some location in Costa Mesa.

At approximately 1815 hours, I made contact with Telephone Security in San Francisco. I advised them of the telephone number and requested a check of the number so that I could obtain a complete name and address for the person that the number is registered to. I was advised by Telephone Security that the number is listed to a [redacted] with an address of [redacted] in Costa Mesa.

On 5/20/87, at approximately 1630 hours, I arrived in Orange County and was met by Orange County Sheriff's [redacted]. [redacted] We had prior information that [redacted] had outstanding [redacted] with this information, Orange County Investigators and myself went to the [redacted] address, where Orange County Officials took [redacted] into custody without incident on these charges.

On 5/20/87, at 1757 hours, I initiated an interview with [redacted] [redacted] California. [redacted] confirmed that he is basically "crashing" at [redacted] residence. He stated that he is not living there. He stated that all of his belongings are in his vehicle, located in front of [redacted] residence.

In an interview that was videotaped, as well as tape recorded, [redacted] was advised of his Constitutional rights per Miranda, which he stated that he understood. He agreed to waive his rights and give me a statement regarding the tree spiking incident in Mendocino County.

[redacted] stated that he had spiked about seventeen of his own trees with sixteen penny nails. He stated that these trees were located on the east side of the west boundary of his property. He denied ever spiking any trees outside of those on his property. He also denied using any nails that I described as spikes, approximately eleven inches in length.

[redacted] was extremely difficult to keep on point relating to the spiking incident. He appeared to be attempting to lure the conversation away from the spiking to other unrelated matters. During the interview, [redacted] drew a rough diagram of his property showing the location where he spiked the trees. This diagram was drawn on a piece of notepaper supplied by this officer. The interview ended at approximately 1919 hours. [Refer to the video and audio tapes of interview with [redacted] for further details.]

b6  
b7C

After the interview with [redacted] at approximately 1830 hours, prior to [redacted] being booked into the Orange County Jail on the charges from that County, I asked [redacted] if he would submit to a polygraph regarding the spiking of trees outside of his property that could have caused the injury to the Louisiana Pacific employee. He stated that he would be happy to take a polygraph. I advised him that he did not have to take a polygraph, that it is his right to refuse it, and that it could not be used against him. He again stated that he would take the polygraph.

b6  
b7C

With this information, contact was made with Costa Mesa Police Department, at which time Sgt. [redacted] advised that he would perform the polygraph test on [redacted] for us.

b6  
b7C

It should be noted that while the initial interview of [redacted] was being conducted, I asked him for permission to search his vehicle which was located at the Presidio Drive address. He advised me that he would allow the search of his vehicle. I told him that he did not have to submit his vehicle to a search. He again stated that he had no problem with me searching his vehicle. I advised [redacted] that the only items that we would be searching for would be items that related to the case of the tree spiking in Mendocino County, which included any nails or large spikes, hammer, or any literature that could possibly relate to instructions on tree spiking.

b6  
b7C

[redacted] was transported to the Costa Mesa Police Department where he met with Sgt. [redacted]. I briefed [redacted] on the case, and then he began his interview with [redacted].

b6  
b7C

With permission to search [redacted] vehicle, Detective [redacted] and myself went to the Presidio Drive address at 2100 hours. A search of the vehicle was made, with no items of evidentiary value being located. Entry into the car was made with the use of the two keys that had been supplied to me by [redacted]. The search lasted from approximately 2100 hours to 2145 hours. The vehicle was locked prior to our departure and the keys were eventually returned to [redacted] when he was booked into the Orange County Jail on their charges.

b6  
b7C

At 2150 hours, contact was made [redacted] who apparently is now [redacted] in Costa Mesa. It was at this time that a signed permission to search form was reviewed by her and signed, allowing the search of her property located at [redacted].

b6  
b7C

b6  
b7C

After the form was signed by [redacted] and I returned to the Costa Mesa Police Department to await the completion of the polygraph examination on [redacted]

b6  
b7C

At 2400 hours, Sgt. [redacted] advised me that [redacted] had failed the polygraph examination. The two questions in particular that showed deception were as follows: 1) Did you spike the logs at the log deck on Cameron Road? and 2) Did you spike any trees outside of your property? Sgt. [redacted] advised that there was no doubt in his mind that [redacted] was being deceptive when answering these two questions.

b6  
b7C

At approximately 0030 hours, I re-contacted [redacted] and advised him of the polygraph results. He stated that at no time was he lying, nor did he have any large spikes, as had been previously described, in his possession. [redacted] stated that he had borrowed a red handled hammer from [redacted] in December. He stated that he could not remember if he discussed spiking the trees with [redacted] or [redacted] and he denied showing any spikes to either of them.

b6  
b7C

[redacted] stated that he had purchased some sixteen penny nails from Rossi's Hardware Store in Fort Bragg in December. He stated that he purchased the nails there for the purpose of spiking the trees on his property only. He stated that he did not purchase any large nails in Fort Bragg.

b6  
b7C

I advised [redacted] that I wasn't suggesting that he had purchased the spikes in Fort Bragg, but that it could be possible that he may have brought them up from the Southern California area. At that point he appeared to suddenly remember, stating that he did now remember that he had purchased some long spikes about eleven inches in length in 1985, just after he and his wife had purchased the property on Cameron Road. He stated that the reason for purchasing the spikes was so that he could take them to Mendocino County and lay out a grid on the ground so he would be able to determine where he wanted to build a home. [redacted] prior to this statement, made the comment "Oh, you've jogged my memory. I remember now."

b6  
b7C

[redacted] was not clear as to whether or not he had left the spikes in the plywood structure on his property on Cameron Road or if he had taken them back to Southern California. [redacted] stated that he knows for certain that on his last trip to Mendocino County, the spikes were not at the plywood structure on his property. I asked him if somebody could have gone into the structure, either by breaking in or for the purpose of borrowing the spikes. He then stated that the plywood structure had been broken into earlier, and it was possible that whoever broke into the structure took the spikes.

b6  
b7C

[redacted] then stated that for all he knew [redacted] may be the person responsible for spiking the trees. [redacted] stated that [redacted] is closer to the environment than he is himself, and has been very upset over the logging operations in the area.

b6  
b7C

Reported by Deputy [redacted]

b6  
b7C

I then asked [ ] if he was sure that he did not use the spikes in the trees. [ ] stated that if he had used the large spikes in the trees, they would only have been used in the trees on his property, and that he may have spiked his trees with the large spikes in 1985.

b6  
b7C

On 5/21/87, at 1345 hours, I made contact with [ ] at her place of employment. The purpose of the phone call was to obtain permission to search her garage for the spikes that [ ] had stated may be in the garage. [ ] stated that she had no problem with me searching the garage, and agreed to meet me at approximately 1415 hours at her residence to conduct the search.

b6  
b7C

At 1415 hours, I contacted [ ] at her residence on [ ] in Costa Mesa. At that time, a search of the interior of her garage and the property in her back yard was conducted for the purpose of locating the spikes, with negative results.

b6  
b7C

On 5/23/87, I was contacted by Mendocino County Sheriff's Office Dispatch and advised that [ ] had called and wanted me to call him back regarding the tree spiking incident. Due to my not having recording capabilities, I advised Dispatch to inform [ ] that I would call him at approximately 0830 hours, on 5/26/87.

b6  
b7C

On 5/26/87, at approximately 0830 hours through 0900 hours, I attempted to contact [ ] at the telephone number listed, with negative results. For the first approximately twenty-five minutes, the phone was busy. Upon again trying the number, the phone continued to ring with no answer.

## IWA asks worker protection

Fort Bragg, June 2 (AP) — The International Brotherhood of Teamsters Local 1017 has asked the state to take action to protect workers from falling objects.

They discussed increasing safety standards for off-beam work, such as the use of guard rails and safety nets, and the use of fall protection equipment.

Alexander, 21, of Hopland, was injured as a result of the heading machine's 11-inch spike hitting his head.

In addition to signaling metal detectors check for falling objects, the union said, workers could be required to wear additional protection.

Alexander was well known in the area for his work as a guard when he was hurt. The local union favors metal detectors, especially in old mills where big and heavy machinery is common, but recognizes that many mills have other safety measures.

The union's Local 1017 represents woodworkers at Georgia-Pacific's Fort Bragg operation. Hess said workers should have a metal detector in the heading machine and the union recently checked in the plant of installing one there.

The cost of a detector "park" could be as high as \$100,000 to \$150,000, Hess said.

IWA has asked Cal-OSHA for a special order, which would require immediate action by O-P and other companies that supports the agency in instituting additional permanent safety practices statewide.

A verbal request was made last week and will be followed by a formal letter, Hess said.

"We had an incident here years ago. The only problem, if you will, when a blade broke and shaved and read the book of an offbearer in the chest. 'Ecclesiastes' is that there are caused extensive injuries," he says, "because spikes which can be used and which would not be."

Has reiterated the union's opposition to Simmons' suggestion to tree spiking as a form of "defensive" action. "I don't know that we would be pro-active," Simmons said. "I don't believe that solving the problem (by installing a defense) is to condone any kind of tree metal defoliation."

*This is a report concerning physical evidence examinations requested by your office. In any future correspondence regarding this case please use the BFS case number appearing at the top of this report. If court testimony is required, please notify this office at least two weeks in advance whenever possible.*

**SUMMARY:**

Results are inconclusive whether any of the submitted hammers struck the submitted spike. The hammer head striking surfaces are smooth and do not produce markings of comparison value.

**EVIDENCE:**

- Item 1: Six (6) pieces of a large spike.  
 1D: A 16 ounce Plumb hammer.  
 208: An Estwing "Safe-T-Shape" hammer.  
 216: A 13 ounce Stanley hammer.

**EXAMINATIONS:**

Visual and microscopic examination of the spike's head found coarse and fine striations, rust, recent gouges, and indentations.

Examination of each hammer's head found random microscopic scratches and some indentations on otherwise smooth surfaces.

Laboratory tests were conducted using similar spikes and striking them with the submitted hammers. Examinations of the test spikes did not show the presence of any markings of comparison value.

**DISPOSITION:**

The evidence was returned to Det. [REDACTED] on June 11, 1987.

Because we are appalled about and sincerely regret the accident that injured L-P mill worker, [redacted] and because we want to avoid, if at all possible, such a thing ever happening again, we want to issue this notice to all loggers and mill-workers that any and all areas where trees are being logged may, in fact, have been subject to spiking. Please be aware of this fact, and be careful. Insist that your employers take the utmost care and precautions to insure your safety.

b6  
b7C

Trees spiked by environmentalists will have been anonymously brought to the attention of your employers, the media and other authorities, and will be marked with an 'S', but these may be spiked by careless and less responsible people, with no notice given; and it is this we wish to warn you against. Trees may have been spiked with a ceramic material not detectable by a metal detector.

So, PLEASE, use caution and INSIST that your employers do so too.

We are concerned for your welfare and your safety.

WE DO CARE!!!!!!

(For obvious reasons, we cannot sign this letter....but feel an urgent need to issue this notice. An utter sense of frustration with Timber Companies' total lack of regard for the environment is leading people to take measures to attempt to stop the massacre of the forests that is occurring, that is also jeopardizing the future of employment for loggers and mill workers. But we want to also try to guard the safety of the timber company employees!!!)

The following investigation was conducted by SAs [ ]

b6  
b7C

On August 7, 1990, Sergeant [ ] Mendocino County Sheriff's Office, Ukiah, California, was contacted in an effort to develop logical leads in the investigation of the bombing of the automobile of JUDI BARI and the bombing of the Louisiana Pacific Mill in Cloverdale, California.

b6  
b7C

[ ] furnished the attached CLETS printout regarding [ ] and Mendocino County Sheriff's Office Investigative Reports Number 81-3340 and 85-2261 regarding [ ] (The attached photocopy of [ ] drivers license bearing his photograph was subsequently obtained from Department of Motor Vehicles on August 13, 1990).

b6  
b7C

Sergeant [ ] advised that one of the more vocal members of the timber community who has been reported to have made threats against the environmentalists is [ ] of Philbrick Logging and Trucking in Fort Bragg, California. Reportedly, [ ] has made comments to the effect that if they, the loggers, really wanted to do something against BARI, they know where she lives and could bomb her if they wanted to. [ ] is one of the members of the logging community that was at the series of meetings with the environmentalists in Willits, California, prior to the car bombing. [ ] lives in [ ]. Although [ ] has made emotional public statements in the past, recently on a Fort Bragg radio talk show [ ] debated an environmentalist and was observed by the moderator to have mellowed.

b6  
b7C

[ ] advised that an individual by the name of [ ] is associated with the Animal Liberation Front (ALF). [ ] DARRYL CHERNEY reportedly began associating with each other in 1989 and [ ] was with CHERNEY when CHERNEY was arrested for obstructing traffic on the Golden Gate Bridge in April or May, 1990. Reportedly [ ] is familiar with explosives and [ ] notes that acts of violence, including explosives, have been committed by individuals on behalf of the ALF.

NO DESCRIPTION OF SCENE? DIRT ROAD IN RURAL HEAVY FORESTED AREA.

TO INVESTIGATION?

ON 10/27/88 AT 0700 HRS., SGT. [REDACTED] AND I WERE DETAILED TO RESPOND TO THE ABOVE LISTED LOCATION REGARDING POSSIBLE TRESPASS BY MEMBERS OF THE "EARTH FIRST" ACTIVISTS.

WE ARRIVED ON LOCATION AT 0840 HRS. AND CONTACTED APPROX. 30 PERSONS WHO WERE STANDING IN THE MIDDLE OF THE DIRT ROAD, AROUND A WOOD FIRE AND SINGING PROTEST SONGS. SGT. [REDACTED] ASKED THE "EARTH FIRST" PERSONS TO DEPART THE AREA AND THEY ASKED FOR 5 MIN. TO CONSIDER. SGT. [REDACTED] REQUESTED AFTER APPROX 5 MIN. ALL THE PERSONS PROCEEDED UP THE ROAD WITHOUT GIVING SGT. [REDACTED] AN ANSWER TO HIS REQUEST FOR THEM TO DEPART THE AREA. THERE WAS A LARGE LOG BLOCKING ACCESS ALONG THE ROAD WHICH HAD TO BE CUT VIA CHAIN SAW AND MOVED ASIDE TO ALLOW VEH. MOVEMENT ALONG THE ROAD. THE GROUP OF "EARTH FIRST" PERSONS WERE WALKING SLOWLY ALONG THE ROAD IN FRONT OF MY VEHICLE. I ASKED THEM IF THEY WOULD ALLOW ME TO PASS; THEY DID NOT ANSWER AND CONTINUED WALKING SLOWLY IN FRONT OF MY VEHICLE PURPOSELY IMPEDING MY ADVANCE. DURING THE NEXT 1-3 MILES, I ENCOUNTERED AND HAD TO MOVE 23 SEPERATE MAN MADE ROAD BLOCKS CONSTRUCTED OF LARGE ROCKS, LOGS AND TREE LIMBS. I CONTINUED TO

FOLLOW THE GROUP FOR 10.3 MILES AT WHICH TIME THEY  
DISPERSED IN SMALLER GROUPS WALKING BACK TO THE  
SITE WHERE WE FIRST ENCOUNTERED THEM. ON MY  
WAY BACK TO THE LATTER SITE, I FOUND THAT SOMEONE  
HAD AGAIN BLOCKED THE ROAD WHICH I AGAIN HAD TO  
CLEAR AWAY A PATH FOR MY VEHICLE.

MEMBERS OF THE GROUP SAID THEY HAD SPENT THE NIGHT  
IN THE AREA AND THIS MAY HAVE BEEN RESPONSIBLE FOR  
THE ROAD BLOCKS, HOWEVER, THE RESPONSIBLE PERSONS ARE  
UNKNOWN.

THE GROUP STATED THEIR PURPOSE IN BEING THERE WAS  
TO DENY ACCESS VIA THE ROAD FOR WORK CREWS WHO WERE  
ASSIGNED TO CLEAR ROADWAYS FOR LOGGING OPERATIONS  
WHICH WOULD BEGIN NEXT SPRING.

bomb has never been disclosed.  
The rambling letter's first page describes the writer's anger at Bari, which was spawned in late 1988 when she and other activists staged a counter-demonstration against anti-abortion advocates outside of a Ukiah abortion clinic.  
"This woman is possessed of the Devil," the writer says. "The Lord cleared my vision and revealed this unto me outside the Baby-Killing Clinic when Judi Bari smote with Satan's words the humble and Faithful servants of the Lord who had come there to make witness against Abortion."  
After the abortion rally, Bari again came to the attention of the writer with her campaign against logging on the North Coast. The letter says Bari is a leader in the Redwood Summer, a planned series of demonstrations and civil disobedience aimed at slowing the pace of logging in timber country.  
"This possessed demon Judi Bari spread her Poison to tell the Multitude that trees were not God's gift to Man but that trees were themselves gods and it was a sin to cut them," he writes. "I felt the Power of the Lord stir within my heart and I knew I had been Chosen to strike down this Demon."  
He said he planned a bomb outside the Cloverdale mill "to bring infamy down on Judi Bari."  
The letter describes the pipe

bomb's construction and its container in great detail, down to the ratio of gas and oil contained in a can that was meant to start a fire. But the can did not ignite when the bomb exploded.  
"With this sign the Lord told me to Use not Indirection." So the next bomb was targeted directly at Bari.  
The writer states that the bomb was placed in Bari's car "whilst she was at the meeting with the loggers." Bari and other Redwood Summer activists have been meeting for a month with independent timber and logging representatives in an effort to lay out ground rules for a peaceful summer. On May 22, two nights before she was injured, Bari and others gathered in an unpublicized meeting at Dan's Frontier Room in Willits to discuss how loggers and environmentalists could peacefully co-exist in the woods this summer.  
"But it did not Explode!" the letter states. Bari and several others at that Tuesday meeting drove to her house in Redwood Valley after the session. On Wednesday, she drove with folk singer Utah Phillips to Oakland, where another Redwood Summer planning meeting was held Wednesday night at the Seeds of Peace house. She drove from there to a friend's home to spend Wednesday night.  
Then, on Thursday morning, she and Cherney got in the car to leave

the forests and worship trees...  
"If you Heed not this Warning and go into the forests to do Satan's Bidding surely you will Suffer the Punishment of demon Judi Bari."  
Oakland police did not return phone calls regarding the letter and FBI agent Rikes was cautious not to make any assessment of it.  
"Until we look at it, there is no way we are going to comment on pending investigation," he said.  
"You have to understand that there is all kinds of finger-pointing going on. You have a bomb go off in a car in Oakland and you don't know the time whether the people in the car are the transporters or the victims. We have to look at both sides of this."  
Sonoma County sheriff's officials quoted the FBI last week as saying it might want to examine the remnants of the Cloverdale bomb but local officials said federal agents had made no further contact. While much of that bomb was destroyed, Sheets said some of the parts that remain match what is described in the letter.  
The Press Democrat agreed that the FBI's request that details about the bombs not be published until the agency has analyzed its physical evidence. Because those details may be known only to the person who built the bombs, the information may be crucial to the investigation.  
Or, the details included in the letter "could be taken straight out of 'The Anarchist's Cookbook,'" Rikes said. He said investigators have not yet analyzed the hundreds of pounds of evidence collected from the blast scene, and until the construction of the bomb can be determined.  
An agent from the Santa Rosa FBI office drove to Ukiah Wednesday afternoon and picked up the letter.

## Understanding

- is the gift that comes from listening
- is asking questions rather than knowing the answer
- allows differences to fade and similarities to come forth
- naturally acknowledges and appreciates the other person and ideas
- moves from issue to vision
- Creates movement from stalemate to resolution

# 1 of Earth First! pair suspected of transporting bomb bailed out

## Group hires private detective to try to clear injured two

OF THE CHAMBER STAFF**

**OAKLAND** — Darryl Cherney, the environmental activist injured in a bomb explosion last Thursday and later arrested on suspicion of carrying explosives, has been freed from Oakland city jail on \$100,000 bond.

Meanwhile, a private detective has been brought in by Earth First! in hopes of clearing Cherny and Judi Bari, two leaders of the radical environmental group who are under suspicion of carrying the pipe bomb that detonated in their car last week.

Officials at the jail said Cherney was bailed out at 9.15 p.m. Monday, but refused to give further details.

**Friends of Cherney and Bari,** who was seriously injured in the explosion, had been working furiously since Cherney was booked Thursday night to raise the bail money, but whether they put up cash bail or paid 10 percent for a bail bond wasn't immediately known.

The bomb exploded Thursday in a car driven by Bari, 40, an outspoken Earth First! member. She and passenger Cherney, 33, were reportedly driving to Santa Cruz to rally support for a summer campaign to stop the cutting of

## Assault a flag burner in Louisiana, pay \$25

UNITED PRESS INTERNATIONAL

**BATON ROUGE, La.** — The Louisiana House approved legislation Monday that would dramatically lessen the penalties for a person convicted of assaulting someone who desecrates the U.S. flag.

Under the bill, a person convicted of simple battery against a flag burner would pay a maximum fine of \$25 without being sentenced to prison.

old-growth timber in Northern California.

Both Bari and Cherney were injured in the blast near Oakland High School. They were booked for investigation of violating state explosives laws.

Alameda County authorities said Tuesday they had not finished reviewing evidence against Cherney and Bari to determine whether formal charges will be filed against them.

Assistant District Attorney Chris Carpenter said, "We want to wait for results of additional laboratory tests before taking further appropriate action."

• Carpenter said the lab tests could take as long as two weeks to complete. Attorneys for Cherney and Bari weren't available for comment on the new delay.

Bari is still in stable condition at Highland Hospital with pelvic and

**Internal Injuries**

**Defenders of Bari and Cherney**  
have adamantly insisted that the  
two Earth First! leaders were inno-  
cent victims of the car bomb.

On Saturday, private investigator Sheila O'Donnel was hired on the recommendation of Greenpeace, another environmental group. Greenpeace will pay the investigator's fees, said Mike Roselle, a co-founder of Earth First!

• "We're worried about the destruction of evidence," Roselle said Monday. "They (police) are looking for evidence that would find them guilty, not evidence that would find them innocent. That's why we have to have this investigation monitored."

Authorities have said the bomb was placed in the back seat of Bagri's white Subaru directly behind the driver's seat and under a guitar case and other luggage.

## Operating room sheets catch fire, patient dies

## Thick smoke foils attempts to put out sudden blaze

**By Michael Fleeman**  
**ASSOCIATED PRESS**

**LOS ANGELES —** A patient undergoing surgery died Monday after sheets covering her caught fire and filled the UCLA Medical Center operating room with smoke so thick that staff members couldn't extinguish the flames.

Investigators were looking for the cause of the 5:30 a.m. fire on the lower level of the sprawling hospital, said city Fire Department spokesman Pat Marek.

"The sheets just caught on fire," he said. "It's bizarre."

An autopsy also was ordered to determine the cause of death of the patient, 26-year-old Angela Hernandez of Los Angeles, who had been undergoing surgery for injuries suffered in an automobile accident, said campus spokeswoman Vicki Beck.

It was not immediately known whether Hernandez died because of the fire and smoke, her injuries, or a combination of the two.

Hernandez had been taken to the medical center in critical condition after suffering heart and liver injuries in the accident at 11:44 p.m. Sunday in Santa Monica, Beck said.

A team of eight to 10 medical staff members, including doctors and nurses, were performing the surgery when flames engulfed the surgical cloth over the patient, said Beck.

"There was a serious attempt by the staff to extinguish the fire," she said, without being specific about what steps were taken.

The smoke became so bad that the operating room staff members had to leave the room and university police who had responded to the fire could not get inside the room, Beck said.

About five minutes after the fire broke out, city fire department firefighters arrived, but by then the blaze had mostly burned itself out, said Marsh.

# Jovanovich eases out of publishing

## Takeover fight left firm in debt

orich  
my independent but left li  
y in debt

**NEW YORK**  
Chairman  
William Jovanovich resigned  
Tuesday from  
textbook pub-  
lisher Harcourt  
Brace Jovanov-  
ich Inc., three  
years after or-  
chestrating a re-  
capitalization  
that kept the  
my independent but left li  
y in debt

"Forty-three years is enough,"  
the 70-year-old Jovanovich said in  
stepping down from his last major  
corporate assignment at the com-  
pany he joined as a textbook  
salesman and editor in 1947.  
He had been disengaging himself  
from the company over the past  
two years, stepping down earlier as  
president and chief executive.  
Jovanovich will be succeeded as  
chairman by former U.S. energy

secretary John S. Harrington, 51,  
who has been on the board of  
directors for a year.

Harrington, who practices law in  
Walnut Creek, and his brother  
David own Quail Hill Ranch subdi-  
vision in Freestone. In 1980 they  
won a \$2.5 million judgment  
against Sonoma County for unfairly  
denying their application to build  
22 homes and a country inn on the  
540-acre. The damages aspect of  
the case will be retried this sum-  
mer.

Harcourt Brace Jovanovich's 23-  
year-old book distribution center  
on Lakeville Highway in Petaluma  
was phased out in March and April  
as part of a cost-cutting measure.  
The center employed 50 people  
and served as the West Coast  
distribution center for Harcourt  
and two subsidiaries, Holt Rinehart  
Winston and W.B. Saunders. The  
138-acre site is now for sale.

Jovanovich's son, Peter Jovanov-  
ich, 41, was named president and  
chief executive late last year and  
was named Tuesday as chairman  
of the executive committee, anoth-  
er post the elder Jovanovich is  
leaving.

Analysis said they expect no  
major shifts in direction for the  
company, which is grappling with  
how to handle a debt burden that is  
expected to become a more serious  
problem over the next few years as  
cash dividends come due.

"I don't see where this makes a  
whole lot of difference," said An-  
drew Herenstein, who follows the  
company for the investment firm  
Delaware Boy Co. in New York.  
"There still has to be some kind of  
restructuring."

Wall Street also shrugged off the  
change. In trading on the New  
York Stock Exchange, Harcourt  
finished unchanged at \$3.12 1/2 a  
share.

William Jovanovich joined Har-  
court Brace & Co. as a book  
salesman and editor in 1947 and  
built it into one of the nation's  
leading publishers of textbooks as  
well as premier medical and profes-  
sional publisher.

When he became president and  
chief executive in 1954, the com-  
pany had annual sales of \$8 million  
and employed 125 people. Last  
year, it posted revenue of \$1.3  
billion and employed 6,000 people.

Although he owned less than 2  
percent of the company's stock,  
Jovanovich exercised unusually  
strong control over the company.

Dear Earth First! Organizer(s),

It has come to our attention that you are an Earth First! fellatio expert and suck dicks in outhouses.

This kind of behavior is to be expected of homos like you, since we have been observing Earth First! freaks like you for some time. Not only have we been watching you but we also know and have distributed your phone number  to every organized hate group that could possibly have hostile tendencies toward ilk of your kind. No longer can sleazy fairies like you operate with impunity through the guise of anonymity. We know who you are, where you live, and continue to home in on you... but you don't know who we are. How does it feel, eco-freak, to have the tables turned?

b6  
b7C

We've also got your "clandestine" publications which detail how to indiscriminately hurt, maim, and kill people who are involved in legitimate, legal activities. Rest assured, eco-freaks, that we shall not be indiscriminate in our actions against the spineless, invertebrate members of Earth First!. To the contrary, we will specifically hunt down each and every member like the homos you really are.

Sincerely,

Committee For The Death of Earth First!  
Brought to you by Fed Up Americans for Common Sense

TO WHOM IT MAY CONCERN-EVERYBODY:

"Summer of disobedience in the woods": sure says it all!! We are all concerned with the Enviroment, but not to the exdent of **EARTH FIRST**!! We know the Mendocino Environmental Center in Ukiah does do alot of good things to do with the Enviroment, just like we do, taking care of the land, helping to see to these matters. I CANNOT believe you are helping and using **EARTH FIRST**; as they will use you. They are a Terrorist Group who uses terrorists acts and actions, that most of us **DO NOT WANT** to be involved with.

"These **EARTH.FIRST**! people are not modern day Robin Hoods whose cause is not the poor of the forest, but the trees themselves; these are violent men and women who engage in acts which could kill fathers in the name of Mother Earth." **EARTH FIRST** denies their activities have cause injury or death, I guess that doesn't include burning buildings, throwing bombs, spiking trees. As we all know there is a timberman, who will face years of reconstructive surgery- that isn't considered "injury"? **EARTH FIRST** does admitte to certain acts of sabotage and "MONKEYWRENCHING", as in "fence cutting??", "Running wires across roads??", and other acts of vandalism. I don't understand your group, how can you be involved with this group. No one can condone- and everyone should condemn- those who use violence to deny American men and women their livelihoods and even their lives. **WONDER WHAT EARTH FIRST PEOPLE EAT???** It should be **FOOD AND LIVE FIRST!!!!**

I would really consider being involved with **EARTH FIRST**!, you may find yourselves in the same "bracket" as them and TROUBLE. Why don't you call them the name their group is-- "**ASSHOLES FIRST!!!**", because all they will be bringing to your group is their problems and the trouble they are in. There are other concerned people out here, too!! This is America and we shouldn't feel threatened and singled out. **We are watching too!!!!!!**

For the obvious reasons, I will leave this unsigned. Pretty sad when you can't say what you want, in fear of your family and friends being harrassed and even worse, being hurt by these "**EARTH FIRST**" people, who do use terrorist acts of violence and don't think they don't hope and pray your group is not involved in their underhanded tatics.

Dear 

Earth First! is a terrorist organization founded in 1980 by

 Since then this desperate band of misfits, unable to cope with the social and moral laws of America, has taken to violence and terrorism to espouse their narrow points of view. The behavior of members of Earth First! and the response of the public and of law-enforcement officials to these "eco-terrorists" by the casting of a conspiracy net about them by the FBI<sup>2</sup> is becoming well documented.

Lawless acts by Earth First! members include "guerrilla tactics" "and acts of sabotage, such as driving long metal spikes into trees" with the intent to seriously injure people or damage equipment.<sup>3</sup> They are eco-guerrillas, radical environmentalists who have turned to outrageous and sometimes illegal-tactics in their war<sup>4</sup> against those of us who are law-abiding citizens struggling day to day holding jobs and raising our children. These people, contrary to the positions that they pose and the lies they tell, are true enemies of all Americans. But Americans will have their day in court, because "as the militants have grown in ranks and honed their tactics, law-enforcement officials have intensified the penalties. Arrests are increasing; suspected eco-guerrillas have been subpoenaed by federal grand juries or surprised by raids on their meetings."<sup>5</sup> Arrested in association with the intended sabotage of power generating facilities in Arizona were  of the Earth First! speakers bureau, and  The next morning the FBI yanked  out of bed and charged him with conspiracy for his part in the terrorist plan.<sup>6</sup> Another, uncharged Earth First!

What do legitimate Americans have to say about these people? "They are the violent fringe" says Harold Salwasser, deputy director of the Forest Service's Wildlife and Fisheries Service.<sup>8</sup> Jay Hair, president of the National Wildlife Federation is quoted as saying "they are outlaws; they are terrorists; and they have no right being considered environmentalists." Cecil Andrus, former Secretary of the Interior and Governor of Idaho puts it simply by calling them just a "bunch of kooks".<sup>9</sup>

And this leads to the reason for this letter, [redacted] While no real American will question your right to feel the way that you do, and no real American would abridge your right to express those feelings, the very organization that you are supporting is working to undermine the democracy and representative government that gives them the right to protest lawfully and truly make a difference by changing the lawful system. While you say, "I don't support the hooligans, and I don't participate in the vandalism" in fact your support of this terrorist organization is nothing short of conspiracy due to the fact that you know of these activities. Think about it, who is going to look after you when you are arrested and lose your job, home, and family? The same big money lawyers that are taking care of [redacted] that your money paid for? You'll be stuck with the public defender, but at least have the comfort that comes with being a martyr.

peoples is being "selected," shall we say, for annihilation. We are accused of insensitivity if we mention the black plastic garbage bags or saline burning or the intra-uterine dismemberment of gestating human beings. It is more "sensitive" to speak only of the therapeutic removal of "tissue" or "product of conception."

Let us consider these things in quietness before God who sees them all. "O Lord, thou has searched me and known me . . . my frame was not hidden from thee when I was being made in secret. . . Thy eyes beheld my unformed substance; in thy book were written, every one of them, the days that were formed for me, when as yet there was none of them. . . **T**WO FRIENDS were discussing the possibility of life after death. "Hell is a myth," one argued. "How can a God of love condemn His creatures to everlasting punishment?"

His friend nodded in agreement, and the matter seemed to be settled.

The two sat silently for a moment until one of them looked up and said, thoughtfully, "Suppose it is true, after all?"

*Suppose it is true after all that Hell exists?* Jesus Christ Himself described it as a place of "darkness" and a "furnace of fire" where there shall be "wailing and gnashing of teeth."<sup>1</sup> Some say there is no consciousness after death. But from Christ's words, it's evident that a person in Hell is just as aware of himself and his surroundings as when he was on earth!

The Bible, God's Word, says Hell is an everlasting burning for the punishment of sinners and hypocrites,<sup>2</sup> a bottomless pit<sup>3</sup> where men have no rest, day or night.<sup>4</sup> It's a place where people pray, but their prayers are not heard,<sup>5</sup> where they gnaw their tongues and at the same time curse God.<sup>6</sup> Hell is a place where no one would

want their loved ones to go.<sup>7</sup>

*Suppose it is true after all that God will punish sin?* The Bible says, "It is appointed unto men once to die, but after this the judgment."<sup>8</sup>

*Suppose it is true after all that we cannot get to Heaven on the basis of good things we've done?* The Bible says, "we are all as an unclean thing, and all our righteousnesses are as filthy rags."<sup>9</sup>

*Suppose it is true after all that Jesus Christ is the only Savior?* Jesus said, "I am the way, the truth, and the life; no man cometh unto the Father, but by Me."<sup>10</sup>

Be assured that God is holy and must punish sin. But He is also a God of love, "not willing that any should perish."<sup>11</sup> Therefore, He sent His Son to die on the cross for our sins: "God commendeth His love toward us in that, while we were yet sinners, Christ died for us. Much more then, being now justified by His blood, we shall be saved from wrath through Him."<sup>12</sup>

But we must first recognize that we have sinned, ask God's forgiveness and receive Christ as our Savior. Then we can have the

Bless the LORD, O my soul,  
and forget not all His benefits:

Who forgiveth all thine iniquities;  
who healeth all thy diseases;  
Who redeemeth thy life from destruction;  
who crowneth thee with lovingkindness

Who satisfieth thy mouth with good things;

## Praise Him

To know God as the Psalmist did is to exclaim "Bless the LORD, O my soul: and all that is within me, bless His holy name."

When we remember that God forgives our sins, heals our diseases, spares our life and satisfies our deepest needs, we can only lift our voice in praise! Only indifference will quiet this song of thanksgiving.

As we read this psalm, we see that these benefits are not isolated acts, but a continuing shower. God loves, forgives, heals and satisfies—day after day. The awareness of this fills the believer's heart with continuous praise.

Yet this song has an even deeper source. Behind the continuous giving, is a loving, merciful God. He forgives because He is forgiving. He heals, delivers and satisfies because He is love.

God's love and mercy were fully revealed in sending Jesus Christ into our sin-filled world. Here the Son of God brought healing and forgiveness to those who received Him. On the cross He suffered for our sins, that we might know God's blessings.

joy and peace of God's forgiveness, and the assurance that when we die we will be with Christ forever in Heaven.

Have you received Jesus Christ as your Savior? "He that believeth on the Son hath everlasting life; and he that believeth not the Son shall not see life, but the wrath of God abideth on him."<sup>13</sup> The choice is yours.

We can know God's mercy and forgiveness from sin through faith in Jesus Christ. If you have not trusted Jesus Christ as Savior, He invites you now: "If thou shalt confess with thy mouth the Lord Jesus Christ, and shalt believe in thine heart that God hath raised Him from the dead, thou shalt be saved," Romans 10:9.

With the joy of sins forgiven and new life with God, let us exclaim with the Psalmist David "Bless the LORD, O my soul: and all that is within me, bless His holy name."

## *When I Was Being Made in Secret*

Last month I went to a hospital in Mississippi to visit my new granddaughter Elisabeth. I peered eagerly through the nursery window along with all the other grandmothers and the smug fathers. "Ours" was shown to us by the nurse, a beautiful tiny thing clenching her perfect fists. I gazed as enthralled as though I had never seen a newborn child, as though Elisabeth were the first of her kind ever to appear to mystify and bewitch and melt the soul of a grandmother.

At the back of the nursery I saw some babies who affected me very differently but also very deeply. They were extremely small. A nurse thrust her hands into built-in rubber gloves in the side of an incubator and ever so gently lifted a little creature that looked infinitely more fragile and helpless than our baby, a "preemie" of perhaps two and a half pounds. He was one of several in incubators. As I watched them lying there, eyes bandaged against the heat lamp, moving and breathing in their plastic boxes, I thought of my nephew Charles who was just such a baby nine years ago. Born three months early, he was not expected to make it through the first night.

Earnestly prayed for by his parents and many others, cared for continuously by many gentle hands, he survived. Now he's a lively little nine-year-old.

Not long ago I saw a picture which I will never forget: a black plastic garbage bag which contained what was left of the morning's work in one city hospital—four or five babies, some of them

the size of Charles when he was born, some of them larger. They were rejects.

Who is it that makes the "selections"? Who may determine which tiny person is acceptable and may be permitted to be born (and if necessary, hovered over, cradled in a sterile temperature-controlled incubator to assist his survival), and which is unacceptable and may be treated as a cancer or a gangrenous growth and surgically or chemically removed? What perverted vision of "life enhancement" warrants such a choice?

Gloria Steinem appeared on television this morning to speak about what she calls "pro-choice." What she did not say, what no proponent of abortion ever says, is that the choice they defend is the choice to kill people. Babies are people, but the U.S. Supreme Court has decreed that certain people, if they are young enough and helpless enough, may be killed.

It was not always so in America. Let us who claim to accept moral responsibility for refugees and the world's rejects remember that another of earth's

**Y**OUR FIRST NINE MONTHS of life were the most eventful you have ever experienced. Here are the major milestones of that life before birth — the first chapter in your own biography:

**CONCEPTION:** Father's sperm penetrates mother's egg cell. Genetic instructions from parents interact to begin a new and unique individual — no bigger than a grain of sugar.

**1st DAY:** The first cell divides into two, the two into four, and so on.

**5-9 DAYS:** The new individual burrows into the wall of the womb. Sex can be determined.

**14 DAYS:** Mother's menstrual period is suppressed by a hormone produced by her child.

**18 DAYS:** Heart is forming; eyes developing.

**20 DAYS:** Foundations of brain, spinal cord and nervous system are laid.

**24 DAYS:** Heart begins to beat.

**28 DAYS:** Muscles are developing along the future spine. Arms and legs are budding.

**30 DAYS:** Child has grown 10,000 times to 6-7mm. ( $\frac{1}{4}$  in.) long. Brain has human proportions. Blood flows in veins (but stays separate from mother's blood).

**35 DAYS:** Pituitary gland in brain is forming. Mouth, ears and nose are taking shape.

**40 DAYS:** Heart's energy output is 20 percent of adult's.

**42 DAYS:** Skeleton is formed. Brain coordinates movement of muscles and organs. Reflex responses have begun. Penis is forming in boys. (Mother misses second period.)

**43 DAYS:** Brain waves can be recorded.

**45 DAYS:** Spontaneous movements have begun. Buds of milk teeth have appeared.

**7 WEEKS:** Lips are sensitive to touch. Ears may resemble family pattern.

**8 WEEKS:** Child is well-proportioned, small-scale baby, 3cm. ( $1\frac{1}{4}$  in.) sitting up and a gram ( $\frac{1}{16}$  oz.) in weight. Every organ is present. Heart beats sturdily. Stomach produces digestive juices. Liver makes blood cells. Kidneys

begin to function. Taste buds are forming.

**9 WEEKS:** Child will bend fingers around an object placed in the palm. Thumb sucking occurs. Fingernails are forming.

**10 WEEKS:** Body is sensitive to touch. Child squints, swallows and frowns.

**11 WEEKS:** Baby urinates, makes complex facial expressions — even smiles.

**12 WEEKS:** Vigorous activity shows distinct individuality. Child can kick, turn feet, curl and fan toes, make a fist, move thumbs, bend wrists, turn head, open mouth and press lips tightly together. Breathing is practiced.

**13 WEEKS:** Face is prettier, facial expressions resembling parents'. Movements are graceful. Vocal cords are formed (but without air baby cannot cry). Sex organs are apparent.

**4 MONTHS:** Child can grasp with hands, swim and turn somersaults.

**4-5 MONTHS:** Mother senses movements.

**5 MONTHS:** Sleeping habits appear. Child responds to sounds in frequencies too high or low for adults to hear.

**6 MONTHS:** Fine hair grows on eyebrows and head. Eyelash fringe appears. Weight is about 640g. (1 lb. 6 oz.) and height 23cm. (9 in.). Babies born at this age have survived.

**7 MONTHS:** Eye teeth are present. Eyelids

open and close, eyes look around. Hands grip strongly. Mother's voice is recognized.

**8 MONTHS:** Weight increases by 1kg. (over 2 lbs.) and baby's quarters get cramped.

**9 MONTHS:** Child triggers labor and birth occurs, usually 255-275 days after conception. Of 45 generations of cell divisions before adulthood, 41 have already taken place.

Adapted from "Milestones of Early Life" by permission of Heritage House 76, Inc. The milestones listed above have been documented by scientific research. Slight variations of hours or days may exist and future research may show that some milestones occur earlier than is now realized.

### "If Someone Had Only Told Me..."

women faced with an unwanted pregnancy are told of the marvelous development of life growing within them. In their ignorance, abortion seems to be the right decision at the moment. But they are not warned of what will really happen to their baby or of the possible physical and psychological effects of abortion which may stay with them the rest of their lives. And they are rarely told of the alternatives to save the life of their child.

Some doctors say that abortion is a routine operation to remove "fetal tissue." But in truth, it is the destruction of a living human being. They do not tell the patient the cruel truth that the fragile life within her may be torn to pieces and sucked into a jar, or poisoned by a strong salt solution, or perhaps born alive and allowed to die by neglect or sometimes killed by a direct act.

One young woman, who later regretted an abortion, stated, "The doctor said, 'a little fluid out and some fluid injected, severe cramps, then the fetus is expelled.' That isn't what it was. I felt my girl thrash around for an hour and a half 'til she died a slow death."

A mother is also exposed to long-term complications. Incomplete abortion resulting in blood clotting, bleeding, hemorrhage, and infections are not uncommon. Menstrual dis-

turbance, miscarriage, tubal pregnancies and sterility are always risks and tend to multiply with successive abortions.

Cervical lacerations and uterine perforation can result from suction and D & C procedures. Convulsions, severe vomiting and diarrhea are common with prostaglandin abortion. Cardiac arrests and maternal deaths have also been reported.

Long-term psychological and spiritual effects, which are now just beginning to be seriously studied, include guilt, anxiety, depression, anger, sense of loss, nightmares, death scenes, deterioration of self-image and even suicide.

### A Life-Giving Alternative

But there is hope for both the mother and the child. If you have a problem pregnancy, we want you to know that you are not alone. God cares for you and the unborn child growing within you. He knew you before you were even born: "O, Lord, Thou hast searched me, and known me . . . My substance was not hidden from Thee, when I was made in secret . . . and in Thy book all my members were written . . . when as yet there was none of them." (from Psalm 139)

God wants to bring life—not death—out of your difficult situation. He has already provided lifelines to help you. Support is available to help

you care for your child or to provide a childless couple with a baby. Financial aid, emotional support, medical services, and most important, a future free of guilt and full of hope for you and your unborn child are yours for the asking.

Choose life today. You can call the following national 24 hour toll-free number. You have friends waiting to help you at: 1-800-B-E-T-H-A-N-Y. Or you can phone "information" and ask for a Right-to-Life or Birthright group near you.

the congestion, which eased signifi-  
cantly about a half-hour after the  
demonstration was sched. to  
begin.

The Willits action was signifi-  
cant for local activists who have  
worked toward keeping lines of  
communication open with the core  
of Redwood Summer organizers.  
Saturday's action was a surprise to  
local law enforcement until  
Friday, due to a communication  
breakdown between Willits and  
Laytonville. Naomi Wagner of the  
Sherwood Forest protection coal-  
ition said it is these kinds of mixups  
the local group wants to prevent.

There were no acts of civil dis-  
obedience and no arrests on  
Saturday or Monday when about  
100 people picketed the mills.

On Monday a group of about 75  
people, many of whom were  
women and children, gathered in  
yellow tee shirts in a counter-  
protest in front of the Louisiana-  
Pacific mill in Calpella. Counter-  
demonstrators also carried signs,  
these proclaiming "It's O.K. to be a  
logger," and "Families First."

"It shaped up as a shouting  
match until people went across the  
street and started talking," com-  
mented Dan Hibshman, a Redwood  
Summer supporter. "Personally I  
thought it was a lot better when  
people started talking than to  
shout slogans across a hot road."

Darryl Cherney was at the center  
of Monday's protest, this time

gave interviews as Redwood  
Summer continues as a non-violent  
campaign to slow logging on the  
North Coast.

Non-violence trainings are ongo-  
ing at sites in Willits, Laytonville,  
Ukiah and Anderson Valley. As  
many as 80 people had gone

going through training elsewhere.  
Those who participate in Redwood  
Summer protests have been asked  
to sign a commitment to non-  
violence. So far demonstrations  
have been very public, with police  
notification and few actions of  
civil disobedience.

## Woman charges FBI with narrow investigation

Attorneys who viewed Judy  
Bari's car and analyzed her in-  
juries have prompted the Oakland  
Police Department and the FBI to  
admit the bomb exploded under  
the activist's seat, not behind it.

However, investigators are still  
trying to link the bomb with Bari  
and fellow Earth First! member  
Darryl Cherney in their analysis  
of nails, typewriter keys and rib-  
bons and other evidence found at  
their homes and in their vehicles.

"Police lied when they said the  
bomb was behind the seat," de-  
mands Richard Johnson, publisher  
of *The Environmentalist* news-  
paper. "They lied in order to get a  
court order to search Judy Bari  
and Darryl Cherney's homes."

Johnson released medical in-  
formation which Bari's friends  
and attorney obtained in order to  
combat any charges which may be  
officially filed in the case. Cherney  
is currently free on bail after being  
arrested for suspicion of possessing  
and transporting an explosive device.  
Evidence presented in court twice  
since the bombing has been insuffi-  
cient to file formal charges, however.  
Police are hoping to present enough  
evidence on July 18 during arraignment  
of Cherney and Bari to secure the charges.

Bari remains in Oakland's  
Highland Hospital with extensive  
injuries to the pelvis and tail bone,  
and will be arraigned in absentia.

Bari's friend, Anna Marie  
Stenberg, says it has become  
"very clear that (investigators) are  
not looking into any other  
scenario," than the possibility that  
Bari and Cherney were either

transporting the bomb or planted  
it as a martyr technique. She said  
the possibility that a known reli-  
gious fanatic in Mendocino  
County had written a letter signed  
by, "The Lord's Avenger" to the  
*Press Democrat* has not been  
researched, and others, including  
herself, with information about  
the case have not been inter-  
viewed. Stenberg said that the  
Saturday after the bombing,  
Oakland Police refused to take a  
statement from her concerning  
possible suspects and motives.

"I was at the meeting in Willits  
where the Lord's Avenger said he  
planted a bomb in Judy's car, and  
as of five weeks after the bomb-  
ing, no one who attended that  
meeting has been contacted,"  
Stenberg said.

"I have information that I  
believe will help solve this case,  
and I have asked the Attorney  
General's office to do an indepen-  
dent investigation. I won't at this  
point cooperate with the FBI or  
the Oakland Police because it has  
become so clear they are only  
trying to blame the victims."

Stenberg said she has been with  
Bari, still in severe pain and fac-  
ing a long recovery from her  
injuries, and after massaging her  
said there were no injuries to her  
back that would indicate the bomb  
was behind her seat.

Willits Police Chief Bob Foster  
said he is leaning toward opening  
his own investigation of the case  
because Willits has been implic-  
ated, but he is waiting to hear  
from the FBI so he may use some  
of the evidence they have in con-  
ducting his own investigation.

## Timber cut slowed by Department of Forestry

Last Friday the California  
Department of Forestry denied  
Pacific Lumber Company's plans to  
log old-growth redwoods in the  
world's largest privately owned

State officials determined that

Friday's ruling comes in the  
wake of a decision by the Federal  
government last month declaring  
the spotted owl, which also makes  
its home in the redwoods, a threat-

The following investigation was conducted by Special [redacted] at Willits, California:

Investigation to determine identities of individuals or companies associated with the trucking/logging industry who had been the victims of sabotage, vandalism and/or "monkey wrenching".

On July 24, 1990, Chief ROBERT FOSTER and Sergeant [redacted] were asked if the Willits Police Department had received any reports of sabotage, vandalism or violence directed against individuals or companies involved in the trucking/logging business, to which both replied that the Willits Police Department had received no such reports.

Both FOSTER and [redacted] then stated that in all likelihood that should anyone have been victimized by such activity that they would have repaired the damage themselves.

Both FOSTER and [redacted] suggested that [redacted] telephone number [redacted] and [redacted] or his son [redacted] loggers, at [redacted] telephone number [redacted] be contacted regarding possible acts of violence.

[redacted] was contacted at his residence, [redacted] at which time he was advised of the identity of the contacting Agent and asked if either he or his father had experienced vandalism to any of their equipment.

[redacted] stated he could not recall any specific acts of violence suffered by any of the equipment owned and operated by either he or his father.

Attempts to contact [redacted] determined there was no one at that location at the time.

Contact with the repair manager (name not furnished), Shuster's Transportation, 750 East Valley Street, Willits, California, telephone number 707-459-4131 determined that Shuster's had not experienced any vandalism to their trucks.

Contact with [redacted] Lonnie Dockins Trucking, 1201 South Blosser Lane, Willits, California, telephone number [redacted] determined there were no known incidents of vandalism or sabotage to any of their trucks. [redacted] stated

The following investigation was conducted by SA [redacted] at Willits, California:

On July 24, 1990, Chief ROBERT FOSTER and Sergeant [redacted] were contacted at the Willits Police Department, 125 East Commercial Street, Suite 150, Willits, California (telephone number [redacted]) at which time they were advised of the Agent's identity and the fact that the Agent was in Willits to interview [redacted] the author of a letter to Chief FOSTER, dated [redacted]

Chief FOSTER acknowledged knowing [redacted] stating [redacted] and indicated [redacted] was very civic minded and known [redacted]

Chief FOSTER was then asked if he knew [redacted] to which he stated he did not.

Chief FOSTER was then asked if he knew where the "well known local bar" might be, and both Chief FOSTER and Sergeant [redacted] stated they believed the bar, referred to in [redacted] letter was John's Place, located just east of the police department on Commercial Street next to the "Club Car". Chief FOSTER added the Club Car has recently changed hands and was previously known as Dan's Frontier Room. Chief FOSTER added that it was at the Frontier Room where, he understands, the Earth First members had a meeting prior to CHERNEY and BARI driving to Oakland, California.

Chief FOSTER was then asked if he, Sergeant [redacted] or anyone else in the Willits Police Department (WDP) had in mind anyone they would consider a possible suspect; one who would put a bomb in JUDI BARI's vehicle. Both were also asked if the WPD had received any reports of threats to any Earth First members and/or other environmental activists.

Chief FOSTER stated he had no one in mind as a possible suspect in the bombing of JUDI BARI's vehicle, nor had his department received any reports of threats of any kind directed to either JUDI BARI, DARRYL CHERNEY or any other environmental activist.

Sergeant [redacted] stated that it was not as though there were not individuals in the area capable of constructing explosive devices, noting that there had been incidents where explosives were used to protect "gardens" (marijuana patches) and [redacted]

Chief FOSTER also stated that his department has not received any reports of violence or threats of violence directed toward any Earth First members, supports, and/or like-minded environmental activists, adding that a threat may have been reported to the Ukiah Police Department or the Mendocino County Sheriff's Office.

Chief FOSTER was then asked if the WPD had received any reports of sabotage or vandalism to any of the equipment owned and/or operated by loggers/truckers.

Chief FOSTER stated that his department had not received any reports of sabotage, damage or vandalism due to "monkey wrenching", adding that he believes that any such damage which may have occurred to truckers/loggers in the Willits area has gone unreported and in all likelihood would have been repaired by the victims themselves.

Chief FOSTER was then asked if he had any suspicions as to who the "Lord's Avenger" may be and whether his department kept letters sent to them from various citizens.

Chief FOSTER replied he did not know who the Lord's Avenger might be but added there was one individual (name not recalled) about whom he had relayed information to the Santa Rosa Office of the FBI and believes that that office was looking into the matter. Chief FOSTER stated further that he has received some letters from a known individual but that these letters were not laced with religious statements and the Chief was going to make these letters available to the Santa Rosa Office of the FBI. Chief FOSTER was then asked if he knew [redacted] who operated [redacted] in Fort Bragg.

On July 23, 1990, Detective [REDACTED] Ukiah Police Department, advised that a pipe bomb had been located at 1112 Elm Street, Ukiah. [REDACTED] requested assistance in determining the make up of the device.

Detectives [REDACTED], Ukiah Police Department, advised that they responded to 1112 Elm Street, Ukiah, where they met a number of individuals who indicated that the device which had been reported as a bomb was actually a package which was completely safe and belonged to them. No one would indicate who found the device. [REDACTED] a white female, acting as a spokeswoman, advised that an individual staying at the residence spotted what appeared to be a pipe bomb in a paper bag inside the residence. This individual placed the bag containing the device outside in the front yard. The individual then contacted the Environmental Center in Ukiah who reported the incident to the Ukiah Police Department.

A survey of items carried by the Home Club, Incorporated, 2001 Sebastopol Road, Santa Rosa, California, telephone number 707-526-6000, determined they carry the following items: 2" by 12" pipe nipples; 1-1/2" by 8" pipe nipples. Examination of the price stickers on the items disclosed they are furnished Home Club by Wami, Valencia, California, and Waxman Industries, city unknown. Also in stock were 1-1/2" and 2" end caps, furnished by Wami of Valencia, California, and Waxman Industries, with stampings on individual end caps indicating they were made in Thailand and Korea. Some of the 1-1/2" end caps had the outline of a bell on them and others had what appeared to be company symbols.

Home Club carries duct tape, manufactured by Polyken Technologies, Consumer Products Group, Westwood, Massachusetts, and duct tape, "Tough Stuff" brand, manufactured by a division of Kendall Corporation. They also carried Action brand tape, manufactured by National Tape Corporation, New Orleans, Louisiana, which was 50 centimeters wide, while the other two duct tapes were 50.8 centimeters wide.

Home Club carries Leviton toggle switches, both ivory and brown, as well as Leviton brand porcelain light sockets. A review of the light sockets determined all of them were round and no square ones were in stock.

Home Club's nails are all pre-packaged and are not sold in bulk.

AT GUERNEVILLE, CALIFORNIA:

A review of the merchandise handled by the Russian River Hardware Store, 15320 River Road, Guerneville, California, telephone 707-887-2201, determined they had 1-1/2" and 2" pipe nipples in stock as well as 1-1/2" end caps. The end caps were marked with a symbol of the "SA" Company and either a bottle or a gourd shaped symbol of a company in Thailand. Duct tape, carried by Russian River Hardware, is manufactured by the United Tape Company, P.O. Box 1860, Cumming, Georgia, and it is listed as being 50 millimeters wide. The light switches available at Russian River Hardware were manufactured by Leviton and by Eagle. Proprietor of the Russian River Hardware advised he obtains most of his electrical supplies from Amfac Electric Supply Company, 2049 West Steele Lane, Santa Rosa, and through Eagle Distributing Company in Santa Rosa, located on Maxwell Court.

A sample of the finishing nails sold by Russian River Hardware was obtained.

AT SANTA ROSA, CALIFORNIA

A survey was made of the merchandise by the True Value of Larkfield, 490 Larkfield Center, Santa Rosa, California, telephone 707-545-8380, and it was determined that True Value had 1-1/2" by 8" and 1-1/2" by 10" pipe nipples in stock; however, there were no 2" pipe nipples in stock. They did have in stock both 1-1/2" and 2" end caps; the 1-1/2" end caps carried no markings whatsoever. The 2" end caps were made in Thailand and in Mexico. The Thailand end caps were marked with the number 2 and with the SA brand. The end caps manufactured in Mexico were marked with a company logo consisting of the letters HM enclosed inside a diamond. This store carried Leviton brand light switches, both brown and ivory in color, as well as white Eagle brand switches and brown switches manufactured in Mexico, labelled G.E. CO.

The store carried Tuck brand duct tape, manufactured in New Rochelle, New York 10801, and was labelled as being 50.8 centimeters wide.

A sampling of the finishing nails carried by True Value Hardware were obtained.

AT SANTA ROSA, CALIFORNIA

A survey of the merchandise handled by the Long's Drug Store, 2075 Mendocino Avenue, Santa Rosa, California, 707-542-4480, determined Long's carries GE brand light switches, manufactured in Mexico, including item GE5941-11D, which was brown, and GE item 5013-21D, which was ivory.

They also carry a one gallon gas can, labelled as tip resistant with a red plastic cap with an integral filler neck, manufactured by Hunter Containers, P.O. Box 706, Vernalis, California 95385.

Long's had in stock several Bullseye and Scotty pocket watches.

Long's carries Tartan Utility Duct Tape, manufactured by Home Products Division of 3M, St. Paul, Minnesota, as well as Nashua Duct Tape, manufactured in Watervliet, New York.

AT SANTA ROSA, CALIFORNIA

A check of Yardbirds, located at 2360 Mendocino Avenue, Santa Rosa, telephone 707-546-5662, determined they handle Leviton light switches with the ivory switches batch number listed in yellow print on the side as being "C10B". The brown Leviton switches had the batch number printed on the side as being "F36B". Yardbirds carries the round Leviton lamp porcelain bases.

Yardbirds handles Tough Stuff brand duct tape in two grades, the professional grade, item number 992046, and the all purpose grade, number 992048, both of which were labelled as being 50.8 millimeters wide.

Yardbirds had 1-1/2" and 2" end caps in stock as well as multiple links of 1-1/2" pipe nipples. The longest 2" pipe nipple was 6" long. The 2" end caps were manufactured in Thailand and appeared to be the bottle or gourd brand and the 1-1/2" end caps were marked with a company logo of what appears to be two small Fs enclosed inside a diamond.

Yardbirds sells Safeguard Tip-Resistant gas cans, the one gallon size, with the red plastic caps with built-in filler neck, manufactured by Hunter Containers, P.O. Box 706, Vernalis, California 95385. A sample of the bulk finishing nails carried by Yardbirds was obtained.

AT SANTA ROSA, CALIFORNIA

A survey of the merchandise handled by the Forman's Plumbing and Electric Supplies, 116 College Avenue, Santa Rosa, telephone 707-545-1640, determined Forman's handles 2" by 12" pipe nipples and 1-1/2" by 8" pipe nipples, however, there were no 8" pipe nipples in stock. The 1-1/2" end caps in stock were manufactured in Thailand and the 2" end caps in stock were manufactured in Thailand under the SA brand as well as the gourd or bottle brand. Light switches handled by Forman's were made in Mexico and carried the stamping G.E. Company and some of them had yellow price stickers on the back side of the switch and others had blue and white price stickers on the back of the switch. Forman's also carried Leviton light switches and Leviton porcelain bases, but only round ones. Forman's handles Tartan brand Duct Tape and Ace Hardware brand Duct Tape.

AT MONTE RIO, CALIFORNIA

A survey of the merchandise handled by the Monte Rio Hardware Store, 20301 Highway 116, Monte Rio, California, telephone 707-865-2104, determined they had 1-1/2" by 8" pipe

nipples in stock, however, no 2" pipe nipples. They had 1-1/2" end caps manufactured in Mexico with the stamping of the manufacturer, consisting of the letters HM enclosed in a diamond, as well as other end caps made in Taiwan with the bottle brand stamp. They also had 2" end caps manufactured in Mexico under the same brand as the 1-1/2". The only light switches carried were the pre-packaged Leviton brand and not the cheaper Leviton brands which are available elsewhere. They handled Manco Duck brand Duct Tape, manufactured by Manco, Incorporated, 2040 West 110th Street, Cleveland, Ohio, and was labelled as being 50.8 centimeters wide. Samples of the nails carried by Monte Rio Hardware were obtained.

AT FORESTVILLE, CALIFORNIA

On 5/30/91, [redacted] telephonically contacted SA [redacted] and furnished the following information:

b6  
b7C

On 5/28/91, [redacted] left a message on [redacted] answering machine. [redacted] was surprised since he had not been in contact with [redacted] since January, 1990. At that last contact [redacted] who was a friend of [redacted] asked [redacted] if he was afraid of [redacted] coming around [redacted] home with guns, since [redacted] and [redacted] are involved in a bitter personal dispute.

b6  
b7C

[redacted] returned [redacted] phone call at which time [redacted] advised him that he is very concerned for him because of what [redacted] is saying on her radio program, KZYK-FM in Philo, California, a public radio station on which she was having a telephone conversation with [redacted] about people he suspected of being involved in the bombing of JUDI BARI's car.

b6  
b7C

[redacted] also advised that he was with [redacted] at the anti-abortion rally held a few years previously which was discussed on the TV documentary "Who Bombed JUDI BARI?"

b6  
b7C

[redacted] feels that this is pertinent, in that the writer of the "Lord's Avenger" letter quoted events directly from that rally.

RECEIVED  
JAN 27 1987  
SAVE THE REDWOODS LEAGUE

Dear [redacted]

Thank you for your letter.

I am surprised that any purchases of old-growth "should adjoin the existing parks in the Fel River District." The dense, high-ridge-top forest now being destroyed by P&LCO are not adjacent to parks, in most cases, yet are so choked with wildlife and so very unprecedented (there are no forests like these now in Preservation) that their purchase—regardless of whether the stands ever were visited by Humans—is imperative.

I am fully aware of the degree of deforestation in California. I was born and raised in

(over)

Guerneville, Sonoma County, where at one time stood what was perhaps the most impressive stand of virgin forest anywhere in the world.

During the 1860s-80s my great-grandfather and his brother milled trees on the Russian River, in Monte Rio. I am aware that GP, LP, Arcata Redwood, Simpson and others have and continue to clear-cut old-growth. Today such actions are criminal and should be treated as such.

I have great admiration for the work done by Save-the-Redwoods League. But I think we must remember that old-growth preservation need not be done solely to provide human leisure areas, and that all entities working to save the virgin forests should pour energies into legislating a ban on logging them.

Thank you,

# 1990 Forest Initiative Needs You

This is the best environmental initiative ever! No wonder the democrats are scrambling to offer a watered down alternative. It would specifically protect old growth forests, mandate sustainable forestry practices, ban clearcutting, discourage log exports and reform the corrupt Calif. Board of Forestry. If you want to help gather signatures beginning Jan. 5 call (415) 824-3841

Also, Audubon, Sierra Club, et al. have adopted a wait and see attitude at a time when this small, grassroots effort needs their support the most. Call them and tell them that environmentalists want this initiative.

Getting an initiative on the ballot costs a lot of money. Donations, any size, to:

## Congress Awakens EPIC Sues

With the last virgin redwood forest about to fall, Congress is stirring from its slumber. Rep.  of Alameda County has introduced a bill to make Headwaters Forest a "study area" for Wild and Scenic River designation. This would create a lengthy moratorium, at least, on logging in the area. Unfortunately, Congress is out of session until late January, and the trees could fall by then. But this bill's introduction provides solid ammunition for the inevitable court case which will follow the logging plans' approval on Dec. 14.

Speaking of court, it seems likely that the Sierra Club will join EPIC of Garberville in suing on the Headwaters Forest logging plans. So why all the preparation for forest defense and demonstration plans? Because the judge may not grant an injunction to stop the logging, and we're not going to be caught flatfooted in the face of forest obliteration. One of the main purposes of bureaucratic & legal red tape is to lull the public into complacency.

# COUNTRY ACTIVIST

An Independent monthly newspaper  
for North Western California ...

Vol. 7 No. 5

June 1990

## Welcome to Redwood Summer!

Welcome. You are passing through the "Redwood Curtain", and into one of the most beautiful zones you will find. We can't tell by looking at you if you're a tourist or an activist, so we welcome you all, with our warmest greetings and hospitality.

You are a guest here, a visitor to our home. We hope you'll appreciate that, and tread lightly on our garden paradise. As a tourist, we encourage you to enjoy yourself while supporting our local economy. As an activist, we encourage you to do the same. Greet our storekeepers and clerks with smiles and friendly talk, and the same will come to you. It our "country ways" that lead to such openness, and you will find it a surprising relief from the cold haste of some cities...

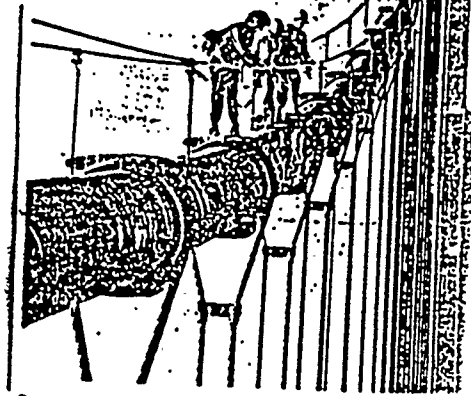

The success of Redwood Summer is up to all of us. We pledge ourselves to peace, and are praying that all our neighbors, regardless of "sides", and all our guests

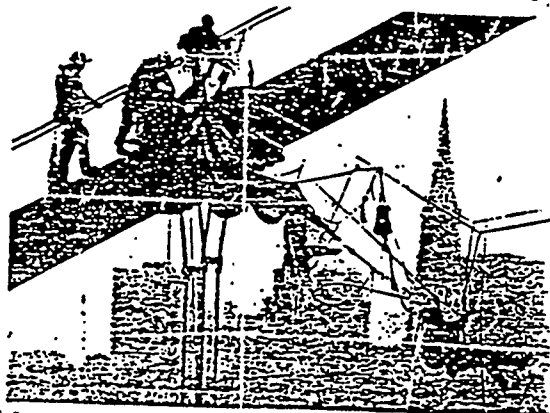

# Why We

# Climbed the Bridge

TRY ACTIVIST

As one of the thirteen people arrested on April 24 for attempting to hang a banner on the Golden Gate Bridge, I want to clarify the purpose of our action, which was a nonviolent effort to express the urgency of our message to the public. The banner called upon the people to "Save This Planet." It is too late for us to place our needs ahead of the earth's needs. This planet is dying because of excessive human consumption. We have to make major changes in our use of natural resources. Recycling is necessary but only a token step. Earth Day organizers provided a number of useful suggestions about how we can live without exploiting the earth as much as we do now but they

did not go far enough; how could they when they were completely coopted by corporate sponsors like PG&E, Dow Chemical and Chevron who have been the most blatant abusers of this planet. These are exactly the people who we need to be protecting the earth from.

The proposals made by groups participating in Earth Day if put to use by the public, not one day but 365 days a year, may help the environment, but unless we take more radical steps to decrease our consumption level and protect the earth from corporate greed we will not be able to save this planet; perhaps only allow ourselves to watch it die more slowly as we do our "20 things to make a greener world" while continuing to consume its resources at an exorbitant rate. The World Watch Institute in Washington D.C. recently reported that in the two decades since the first Earth Day in 1970 we have

done more to destroy the earth than in any other time in history.

Our banner asked the people to defend ancient forests, forests which are being devastated at an astounding pace in our own state by large, money-hungry companies who have no concern for the valuable ecosystems they are annihilating. Our banner also plead for an end to our extravagant use of fossil fuels which is directly responsible for the greenhouse effect which we are now experiencing.

Humans have put themselves first for too long, depleting the earth's resources and desecrating the planet with our garbage and toxic waste which, ironically, is now beginning to kill us as it invades our water systems and eats away at the ozone layer. We have been waging war on the earth, and thus on ourselves. Now is the time for us to put our needs aside and to recognize the urgency of the environmental crisis we have created. No compromises in the defense of Mother Earth. Earth First! --Jennifer Grant, Redway, CA

## Making the Banner

(This poem was written during the creation of the banner...)

The frustration of seeing a need, a reason for change blatantly necessary, unmistakably good--put on hold until it may be too late. Who brings us into crisis, abandoning nature and thus ourselves. Separated from the earth, unbalanced and yearning we search for a meaning, hoping to find an answer on a shelf, in a box, through a cause--never understanding the need to stop, find a way -- the simplest path to oneself, -- and learn to take part in life -- the personal, the natural becoming one, whole and complete, responsible to each other and caring.

Crouched on the floor we sewed, stitching piece by piece into the web as it became our banner calling out beyond those doors absorbing the visions of those who sewed, their hearts willing its message in their stitching, asking for the release of the human compassion which could allow the earth to survive - allow us to live free on a planet joined by faith in the natural-- process of creation.

On 8/21/90, Sergeant [redacted] was contacted at his office, the Arcata Police Department, 736 F Street at which time he was advised of the identity of the contacting Agent and the nature of the interview. Sergeant [redacted] then furnished the following observations:

DARRYL CHERNEY was one to like to start things and then step back and let others do the work. He was not one to risk too much.

[redacted] who was arrested on top of [redacted] car on August 17 following a meeting at Simpson Lumber Company, is always at the Action Center and is one who never says anything.

b6  
b7C

[redacted] stated he just does not see the Arcata group getting involved in violence. He noted that there are other people who could provide some assistance to the movement such as [redacted] who lives in Arcata. [redacted] wrote the Poor Man's Armour, a bomb building text book.

b6  
b7C

Sergeant [redacted] then made available video tapes of the demonstration on 6/20/90, at the Louisiana Pacific plant in Sonoma. A review of these tapes failed to locate any sign similar to the sign left at the Louisiana Pacific bombing in Cloverdale.

b6  
b7C

[redacted] stated he would remain alert for any flyers or correspondence.

The following investigation was conducted by SA  
[redacted] at Arcata, California:

On 8/21/90, Chief MELVIN RAY BROWN was contacted at his office, the Arcata Police Department, 736 F Street, at which time he was advised of the identity of the contacting Agent and the nature of the interview. Chief BROWN then furnished the following information:

There are two locations in Arcata for environmental activity. These are the North Coast Environmental Center located at 879 - 9th Street and the Arcata Action Center at 931 I Street. The first group, the NCEC is the old time group. The new group, the AAC [redacted] just started up in the late Spring in preparation for Redwood Summer.

Chief BROWN made available for review the flyers and correspondence in his possession and none appeared to have any characteristics similar to documents of interest.

The following investigation was conducted by SA  
[redacted] at Ukiah, California:

On 8/20/90, Sergeant [redacted] Ukiah Police Department, was contacted at his office, 300 Seminary Avenue, Ukiah, California at which time he was advised of the identity of the contacting Agent and the nature of the interview.

[redacted] was advised the FBI was endeavoring to locate any and all examples of typewriting and handwriting (printing) originating from the environmental movement. He was also advised that claims for two related bombings (attempts) provided samples of both for which the FBI was attempting to determine the origin.

[redacted] reviewed his files for any samples of writing that were possibly relevant and then furnished a xerox copy of two flyers. One was for a demonstration on July 21 captioned "United WE Stand", the other began "The Coalition for the Redwood Forest". [redacted] stated that for information, [redacted] is a [redacted] in Fort Bragg, [redacted] for the Anderson Valley Advertiser.

Copies of these flyers are attached herewith.
